

Interested in Starting a NUCA Chapter in Your Region?

NUCA has established the **Chapter-In-Development Program** designed to help utility construction professionals form NUCA chapters in their state or region.

Why start a local chapter?

- It offers a forum through which companies in your area can address local concerns in the utility construction industry, including governmental issues.
- It provides valuable networking opportunities for your business, as well as enables you to hone your leadership skills as a chapter officer or member.
- It is a unique and rewarding opportunity to help build a local organization from the start.

NUCA Director of Chapter Development Kenneth Sommer is available to help facilitate the start-up and management of your new chapter. He will also recruit members to join and participate in the chapter.

To discuss the possibility of starting a NUCA chapter in your area, contact Kenneth Sommer, (800) 662-6822, ext. 119, ken@nuca.com. Or complete the form below and fax to (703) 358-9307.
