

Interested in Joining a NUCA Chapter in California?

The National Utility Contractors Association (NUCA) is pleased to announce plans to launch a statewide NUCA chapter in California. The economy, plus the impact of state/local laws and regulations affecting the industry, were named as top issues for the California chapter to address.

Utility construction professionals have come forth to participate on NUCA's **California Advisory Group**. The Group is advising NUCA on the launch of the statewide California chapter. We invite you to join us — and participate in our meetings and conference calls.

Why join a California chapter?

- It offers a forum through which California companies can address local concerns in the utility construction industry, including safety and governmental issues.
- It provides valuable networking opportunities for your business, as well as enables you to hone your leadership skills as a chapter officer or member. Don't miss this unique and rewarding opportunity!

To express your interest, contact NUCA California's Kenneth Sommer, (703) 797-8219, california@nuca.com. Or complete this form and fax to (703) 358-9307. Check out our website: www.nuca.com/california
