AND Crawler Excavator Safe Operating Techniques Video

Purchase before Friday, October 13 and receive 20% off!

Crawler Excavator

Pre-Start Inspection Video

Created to help operators understand the importance of a thorough daily walk-around inspection.

Points out several important things to look for which may be early warning signs of possible trouble spots.

This DVD addresses:

- Correct use of the operators manual
- Housekeeping and the effect on safety
- Testing control functions
- Variations in controls from model-to-model and make-to-make
- Emphasis on accepting personal responsibility

Crawler Excavator

Safe Operating Techniques Video

Scenes have been carefully selected to support the safe operation message.

Footage of actual accidents occurring with excavators helps reinforce the safety message.

This DVD addresses:

- A wide range of applications
- Highway and road work
- Working on hillsides
- Special attachments(hydraulic breakers and demolition shears)
- Dangers around buried and overhead utilities
