

Pipe Installation Training Series

Purchase now at our lowest prices EVER!

Each CD, which takes about 90 minutes to complete, focuses on how to productively and safely perform common tasks related to installation of most types of pipe.

At the end of each CD, an integrated test provides trainers with an accurate measure of how much knowledge trainees

have retained, as well as employee training documentation for employers. Trainees are also able to print certificates of completion, customized with their name and test scores.

Pipelayer Chapter 1: Job Layout

Includes sections on Safety, Material Layout & Handling, Production & Timing, Tools and Protecting the Installation.

Pipelayer Chapter 2: Excavations, Trenching, Manholes & Backfilling

Includes sections on Safety, Trenching, Bedding, Backfilling, Manholes, Dewatering, and Tie-in.

Pipelayer Chapter 3: Working with Pipe

Covers general consideration, PVC pipe, ductile iron pipe, concrete pipe, concrete pressure pipe and polyethylene (PE) pipe, and ends with an exam.

Fax or email your order to nuca@nuca.com by Monday, May 14, 2018, to receive 15% off.
