Dear Member of Congress:

Infrastructure investment spurs job creation and economic growth, and in order to maximize this, the 34 organizations and labor unions of the Transportation Construction Coalition (TCC) urge you to **vote YES on H.R. 4366**, Consolidated Appropriations Act of 2024, which contains the Fiscal Year (FY) 2024 transportation spending bill.

H.R. 4366 would support the funding levels authorized in the Infrastructure Investment and Jobs Act (IIJA), allowing improvements to roads, bridges, and public transit systems. Meeting the investment levels authorized in IIJA will allow the states to continue planned enhancements for all users of the nation's transportation network.

Further, the bill provides supplemental investment for highway, public transportation, airport and multi-modal projects, which will enable the delivery of more transportation system improvements and demonstrates continued congressional support for infrastructure.

Federal investment in infrastructure is critical to building on the economic growth and quality of life enhancements already underway via both the IIJA and previous appropriations laws. For these reasons, the TCC urges a YES vote on H.R. 4366.

The Transportation Construction Coalition
