

NUCA's Virtual Washington Summit

Wednesday, November 8, 2023

ONLINE
ON YOUR
COMPUTER

This fall, Congress is using FY2024 clean water infrastructure funding as a political bargaining chip. That's not how America should be built.

Join us at NUCA's Nov. 8 Virtual Washington Summit to let your lawmakers understand clean water and wastewater infrastructure cannot be neglected. Our work is too critical for America's public health and economic growth.

It's easy to participate. Everything is online, including the Opening Session and Wrap-Up. Your Chapter will be arranging the online meetings with your lawmakers and their top staff and send you the logon information.

Schedule

Opening Session	9:00am–10:00am ET
Virtual Capitol Hill Meetings	10:00am–4:15pm ET (About 15–20 minutes each)
Wrap-Up	4:30pm ET

There is no cost to attend the Summit. NUCA will provide each attendee talking points and fact sheets on this topic and other industry priorities.
