

# Worksite Incident Reporting

Workplace Incident Notification System

There's an old saying: "Bad News does not Age Well". All organizations rely on the continual flow of accurate information in support of appropriate responses and timely decision-making. This maxim is of particular significance in the workplace, where the slightest delay in incident reporting, illness recording or an incomplete assembly of facts collected can and will considerably drive-up the costs associated with a Workers' Compensation claim, utility strike, or safety event.

Underground Contracting presents even greater complexities and unique challenges, as a result of:

- Remote work sites and concurrent projects
- Potential subcontractor involvement
- Interaction with Public Utilities
- Diverse employee groups with varying levels of skill

NUCA WINS has been designed by industry experts to prevent the negative outcomes of delayed and inaccurate Workplace Incident reporting, namely upwards-spiraling claims costs, opportunities for fraud, contentious utility damage claims, avoidable legal actions, and needless delays in recognizing health issues. By implementing a point-of-occurrence incident recording app in employees' mobile devices, authorized users can report a variety of events in real time, including incidents such as:

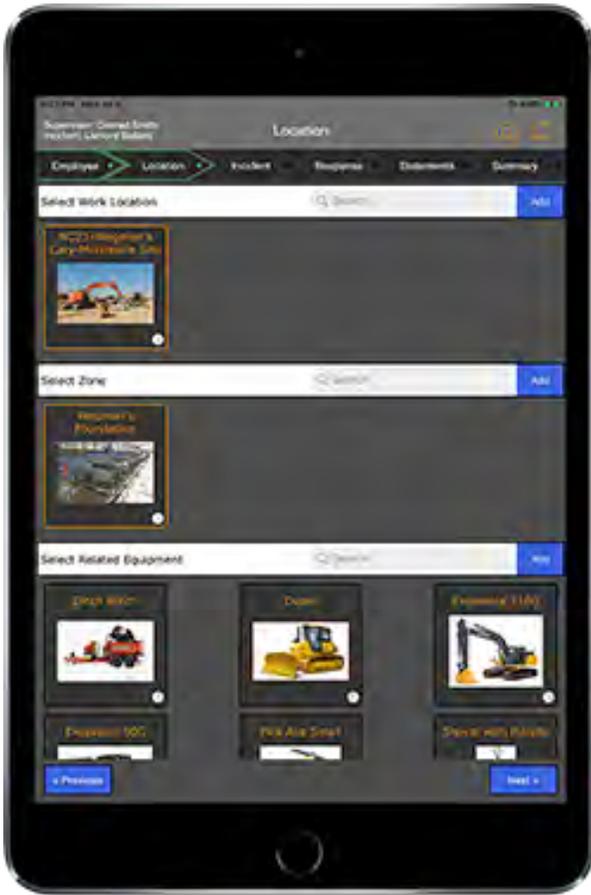

- Injuries and Illnesses
- Property, Liability, Utility Strikes
- For Record Only
- Near Misses
- Safety Observations

It's a given that "delays equal dollars", and that collecting and transmitting information within the first four hours post-incident is critical to proper disposition and resolution. True, not all incidents result in injuries or claims, but successful organizations establish mechanisms for transparent and timely reporting of all variances, as the single most significant measure to reduce incidents, enhance damage prevention, protect workforce health, and limit severity.

Workplace Incident Notification System

# Onsite Incident Recording in the Palm of your Hand

NUCA WINS places an intuitive, obvious-use app right in the Supervisor’s smartphone and the Superintendent’s tablet, facilitating on-the-spot accurate and comprehensive Workplace Incident reporting, right there at the worksite. Functionality includes:

- Immediate text and email notifications
- Complete event intake
- Pictures and audio recordings
- Safety Observations and Near-Misses
- Recognize and Report Health Issues
- E-Signed attestations & waivers
- Incident Locations, Zones, and Equipment
- Witness Statements
- Referrals to approved clinics (for injuries)
- Data required for FROI, OSHA, and all forms
- Supports iOS and Android devices

## Powerful Web-Based Incident Manager

**WorldContract**

**Beyond First Aid:** Harrell, Richard (17989344)  
 Incident ID: 544  
 Time Occurred: Jul 13, 2020, 9:59 a.m. (US/Eastern)  
 Record Created: Jul 13, 2020, 10:01 a.m. (US/Eastern)

**INJURY/ILLNESS**  
 Left Arm - Left Hand (Swollen)  
 Back Pain

**LOCATION**  
 Worksite Location: NC25-Weigman's Cary/Morrisville Site  
 Zone: Weigman's Store
