Workplace Incident Notification System

All Jobsite Incident Types in the Palm of your Hand

Injury

Vehicular

Safety

Liability

Damage

Near-Miss

Utility

Enviro

Screening

Whether you need to record Injuries, document Utility Strikes, or track and respond to on-site Safety incidents, NUCA-WINS' unparalleled "all-in-one" app empowers all stakeholders to report any Jobsite Incident in an intuitive, obvious-use manner, generating immediate notifications and automatically populating reports.

Point-of-Occurrence Incident Reporting

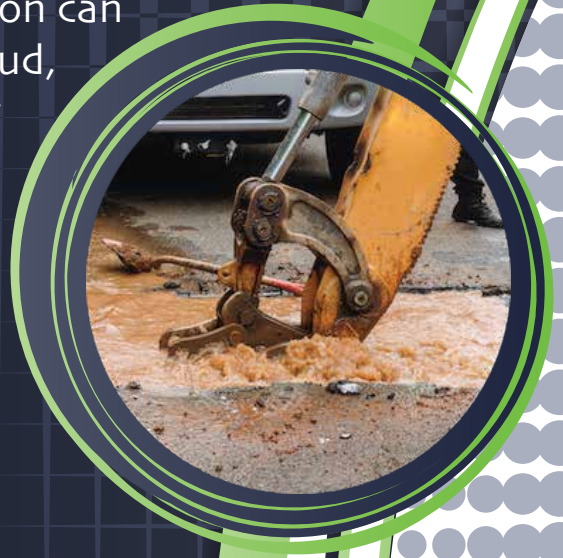

The single most significant step an organization can take to reduce claim costs, defend against fraud, and reinforce a safety culture is to record any and all jobsite incidents in close proximity to their time and place of occurrence.

NUCA-WINS delivers a complete, holistic solution designed to support all types of jobsite incidents, in all location settings. A crisp, responsive user interface fits a broad variety of users and skill-sets, driving rapid implementation and adoption.

NUCA-WINS records any and all types of jobsite events, including Injuries, Vehicular or Property Incidents, Utility Strikes, and many more. Whether your supervisors need to document Injury, Damage, or Safety events, they can do it all from One convenient, intuitive app, right on their tablet or Smartphone. Your company will benefit from accurate and timely reporting, and receive immediate notification in case of any jobsite incidents.
